Hi s22(1)(a)(ii)

You've got it, that's what we would do. The PRS team which actioned the requests should: Protect the data (delete it at the source if possible s47E(d), maintain legislative requirements (retain the authorisation), and to demonstrate compliance keep a 'self-report' record on any potential mistakes and what was done to mitigate them (education for authorising officer etc.)

Kind regards

s22(1)(a)(ii)

Hi s22(1)(a)(ii)

Thanks again for your advice and time this morning.

Below is a list of action for me take re negating unlawfully obtained CCR material from a journalist mobile phone:

- Contact the person who actioned the request and ask them to disclose the error/ what was done to mitigate error/i.e. delete the record but **not the authorisation**
- Case note entry by myself and the actions I have taken i.e. delete from s drive and shred hard copy
- Send task to Promis OMC to delete log number containing results of CCR

Anything I have forgotten??

Thanks s22(1)(a)(ii)
