Re: Assessment into allegations regarding MP George Christensen

Dear Minister

Around September 2017, a source previously unknown to the Australian Federal Police (AFP) alleged that MP George Christensen engages in improper conduct overseas, potentially in contravention of Australian law.

The AFP has completed a thorough assessment in relation to this matter, with no criminal conduct on the part of Mr Christensen being identified.

The assessment did reveal, however, that Mr Christensen undertakes extensive international travel to South East Asia during non-sitting periods and has engaged in activities that could potentially place him at risk of being targeted for compromise by foreign interests.

On 24 May 2018 the AFP met with Mr Christensen and informed him of the potential risk of compromise.

The matter has now been concluded.

Yours sincerely,

Ramzi Jabbour
Deputy Commissioner Capability
