# INTRODUCTION

The *Controlled Operations annual report 2016–17* is the 21st issued under Part IAB of the *Crimes Act 1914* (the Act).

Controlled operations are investigations carried out within a legal framework that balances the need for operational flexibility with appropriate public accountability. Part IAB of the Act was designed to permit certain law enforcement agencies to undertake covert activity which would, in the absence of legislation, constitute an offence against the Commonwealth or that of a state or territory.

Controlled operations permit law enforcement agencies to use covert and coercive powers to uncover and interdict criminal activity and dismantle transnational organised crime syndicates. The offences investigated using this method cover a broad spectrum ranging from corruption, money laundering and importation of illicit goods and substances to terrorism, people smuggling and cybercrime.

The 2016–17 reporting period shows continued success through the seizures of border controlled drugs and precursor chemicals for the Australian Federal Police (AFP). One controlled operation saw the seizure of over 500 kilograms of methamphetamine, with a total street value of approximately \$324 million. The controlled operation regime has also been integral to the successful outcome of multiple terrorism-related investigations the AFP has undertaken.

The Australian Criminal Intelligence Commission (ACIC) conducts special investigations and intelligence operations into federally relevant criminal activity, including large-scale and organised serious offences such as drug trafficking and money laundering. Controlled operations form a fundamental part of the Commission's operational methodologies, resulting in interventions such as arrests and seizures, and securing valuable evidence for prosecutions. The ACIC also works with its partner law enforcement agencies, using the unique intelligence derived from its controlled operations to support joint operations, and to generate compelling insights into criminal syndicates and their activities.

A note on nomenclature: on 1 July 2016, the Australian Crime Commission (ACC) became known as the Australian Criminal Intelligence Commission (ACIC). This annual report refers to controlled operations authorities that were issued before that date but remained active within the 2016-17 reporting year, as well as those that were issued on or after the 1 July 2016. The included reports therefore make reference to both the ACC and ACIC.

The use of controlled operations by the Australian Commission for Law Enforcement Integrity (ACLEI) enables the agency to obtain evidence of offences related to law enforcement corruption.

The controlled operations in this report authorised by 'authorised officers' defined in the Act highlight the cooperation between national and international law enforcement agencies and their success in disrupting the activities of organised crime syndicates and illicit commodity flows. The seizure of illicit goods and proceeds of crime and the subsequent arrest of offenders demonstrate that Australia is committed to combating organised crime and will not be seen as an easy target for such activities.

## GUIDE TO THIS REPORT

This year's report provides details of controlled operations in accordance with the reporting requirements of both the current and the previous legislation.

Part A describes the requirements of the current legislation.

Part B describes the requirements of the legislation in effect until 18 February 2010 that still applies to some matters.

### Part A. Current legislative requirements

#### *Crimes Act 1914*

On 19 February 2010 the *Crimes Legislation Amendment (Serious and Organised Crime) Act 2010* (Cth) received royal assent. This Act provided amendments related to controlled operations Part IAB of the *Crimes Act 1914* (the Act).

Controlled operations can be undertaken with respect to any serious Commonwealth offence or serious state offence that has a federal aspect.

A **controlled operation** is defined by the Act as one that:

1. involves the participation of law enforcement officers and
2. is carried out for the purpose of obtaining evidence that may lead to the prosecution of a person for a serious Commonwealth offence or a serious state offence that has a federal aspect and
3. may involve a law enforcement officer or other person in conduct that would, apart from section 15HA, constitute a Commonwealth offence or an offence against a law of a state or territory.

A **serious Commonwealth offence** means an offence against a law of the Commonwealth that:

1. involves: theft; fraud; tax evasion; currency violations; controlled substances; illegal gambling; obtaining financial benefit by vice engaged in by others; extortion; money laundering; perverting the course of justice; bribery or corruption of, or by, an officer of the Commonwealth, of a state or of a territory; bankruptcy and company violations; harbouring of criminals; forgery (including forging of passports); armament dealings; illegal importation or exportation of fauna into or out of Australia; espionage, sabotage or threats to national security; misuse of a computer or electronic communications; people smuggling; slavery; piracy; the organisation, financing or perpetration of sexual servitude or child sex tourism; dealings in child pornography or material depicting child abuse; importation of prohibited imports; exportation of prohibited exports; violence or firearms; or that involves a matter that is of the same general nature as a matter aforementioned or
2. is punishable on conviction by imprisonment for a period of three years or more.

A **major controlled operation** is a controlled operation that is likely to:

1. involve the infiltration of an organised criminal group by one or more undercover law enforcement officers for a period of more than seven days or
2. continue for more than three months or
3. be directed against suspected criminal activity that includes a threat to life.

## Authorisation of controlled operations

Section 15GH relates to applications for authorities to conduct controlled operations.

A formal application for an authority may be made by an Australian law enforcement officer by means of a written document.

An urgent application may be made orally, in person, or by telephone, or any other means of communication. An urgent application must be followed up in writing within seven days.

## Determination of applications

1. An authorising officer may, after considering an application for an authority to conduct a controlled operation and any additional information provided under subsection 15GH(5):
  - a. authorise the controlled operation by granting the authority, either unconditionally or subject to conditions or
  - b. refuse the application.
2. An authorising officer must not grant an authority to conduct a controlled operation unless the authorising officer is satisfied on reasonable grounds that:
  - a. a serious Commonwealth offence or a serious state offence that has a federal aspect has been, is being, or is likely to be, committed and
  - b. the nature and extent of the suspected criminal activity are such as to justify the conduct of a controlled operation and
  - c. any unlawful conduct involved in conducting the controlled operation will be limited to the maximum extent consistent with conducting an effective controlled operation and
  - d. the operation will be conducted in a way that ensures that, to the maximum extent possible, any illicit goods involved in the controlled operation will be under the control of an Australian law enforcement officer at the end of the controlled operation and
  - e. the proposed controlled conduct will be capable of being accounted for in a way that will enable compliance with the reporting requirements of Division 4 and
  - f. the controlled operation will not be conducted in such a way that a person is likely to be induced to commit a Commonwealth offence or an offence against a law of a state or territory that the person would not otherwise have intended to commit and
  - g. any conduct involved in the controlled operation will not:
    - i. seriously endanger the health or safety of any person or
    - ii. cause the death of, or serious injury to, any person or
    - iii. involve the commission of a sexual offence against any person or
    - iv. result in significant loss of, or serious damage to, property (other than illicit goods) and
  - h. any role assigned to a civilian participant in the operation is not one that could be adequately performed by a law enforcement officer.

## Controlled operation authorities

Section 15GK stipulates the form and content of a controlled operation authority. The requirements include the name of the applicant, certain information concerning the illicit goods, identity of persons authorised to engage in controlled conduct and the nature of the criminal activity the controlled operation is targeting.

Section 15GC of the Act describes the principal law enforcement officer as the Australian law enforcement officer specified in the authority who is responsible for the conduct of the controlled operation.

## Period of effect

An urgent controlled operation authority can remain in force only for a maximum of seven days.

A formal or major controlled operation authority may be in force for up to three months and is deemed to expire at the end of three months from the date it was given unless a variation application to extend the authority is made within the last two weeks of the period of effect.

The variation application to extend the period of effect of a formal or major controlled operation authority beyond three months must be presented to a nominated Administrative Appeals Tribunal member, who may extend the period of effect for up to three months at a time. However, the total period of effect for a formal or major controlled operation authority cannot exceed 24 months.

## Variations to the authority

Variation of authority under section 15GO by an appropriate authorising officer may:

1. extend the period of effect of the authority (subject to subsections (3) and (4) of section 15GO) or
2. authorise additional persons to engage in controlled conduct for the purposes of the controlled operation and specify:
  - a. with respect to additional law enforcement participants – the nature of the controlled conduct that those participants may engage in and
  - b. with respect to additional civilian participants – the particular controlled conduct (if any) that each such participant may engage in or
3. provide that specified persons are no longer authorised to engage in controlled conduct for the purposes of the controlled operation or
4. authorise participants in the controlled operation to engage in additional or alternative controlled conduct.

A nominated Administrative Appeals Tribunal member may extend a formal controlled operation by extensions of three months at a time up to a maximum of 24 months.

## Cancellation of authority

An appropriate authorising officer may, by order in writing given to the principal law enforcement officer for a controlled operation, cancel the authority to conduct the controlled operation at any time and for any reason.

## Reporting requirements

### Six-monthly reports to the Minister and Ombudsman

Section 15HM requires that as soon as practicable after 30 June and 31 December in each year, the chief officer of each authorising agency must submit a report to the Ombudsman. The report sets out the details required by section 15HM(2) in relation to controlled operations the authorising agency was responsible for during the previous six months. A copy of the 15HM report is also provided to the Minister.

### Chief officers' annual report to the Minister and Ombudsman

Section 15HN requires that as soon as practicable after 30 June in each year, the Chief Officer of each authorising agency must submit a report to the Minister setting out the details required by subsections 15HM(2), (2A), (2B) and (2C) in relation to controlled operations for which the agency was the authorising agency during the previous 12 months. A copy of a report given to the Minister under section 15HN must be given to the Ombudsman at the same time as it is given to the Minister.

The Australian Federal Police (AFP) prepared the *Controlled Operations annual report 2016–17* in consultation with the Australian Criminal Intelligence Commission and the Australian Commission for Law Enforcement Integrity.

### Material excluded from reporting

In accordance with subsection 15HN(2) of the Act, the Minister is required to exclude from the annual report information that, if made public, could reasonably be expected to:

1. endanger a person's safety or
2. prejudice an investigation or prosecution or
3. compromise any law enforcement agency's operational activities or methodologies or
4. be contrary to the public interest for any other reason.

## Part B. Historic legislative requirements

On 8 July 1996 the Commonwealth Parliament passed legislation to provide for the conduct of controlled operations by Australian law enforcement agencies.

The following legislative references are to sections of the Act in force until 18 February 2010.

Under the now repealed section 15T of the Act, the Minister was required to lay before each house of parliament, not later than the first sitting day of the House after 1 October each year, a report on controlled operations.

Details to be provided include the date on which the application was made, the decision taken about the application, the reasons for that decision and the information in reports given to the Minister under section 15R during that financial year.

### Material excluded from reporting

In accordance with the now repealed subsection 15T(3) of the Act, the annual report is not to include any information about any person (including the person's name) that has not already been published about that person.

If the Minister is of the view that it is likely that the inclusion of any information in a report provided by the Commissioner of the AFP, the Integrity Commissioner or the Chief Executive Officer of the ACC may:

1. endanger the safety of a person or
2. prejudice an investigation or prosecution,

the Minister must exclude the information from the report under subsection 15T(4) of the Act.

If excluded under subsection 15T(4) in the report laid before each house of parliament, the information is to be published in the first report after the Minister considers that the information will no longer endanger the safety of a person or prejudice the investigation or prosecution.

## Information withheld under the Crimes Act

Subsections 15HN(2), 15HN(4) and, in the case of operations prior to March 2010, the repealed subsections 15T(3) and 15T(4) of the Crimes Act require that reporting of controlled operations exclude information that could, if made public, endanger a person’s safety, prejudice an investigation or prosecution, compromise any law enforcement agency’s modus operandi, be contrary to the public interest or identify any person involved in an operation. When it is no longer necessary to exclude this information, it is published in a subsequent annual report (see Schedule 2).
